

We guide you toward your **success**.

From the first idea to delivery. With method, discretion, and an eye for detail.

WHAT WE BUILD

Made to measure, at your scale.

Custom software

Tools designed around your activity: tracking, management, reports. Simple to use, reliable every day, suited to small businesses and production sites alike.

- ◆ Attendance, payroll or production tracking
- ◆ Dashboards and print-ready reports
- ◆ Desktop applications, easy to install
- ◆ Secure access from your phone

Websites and platforms

Showcase sites, online shops, client areas and administration tools. Fast, polished, easy to keep alive.

- ◆ A polished showcase website, in several languages
- ◆ Online shop with a customer area
- ◆ An admin tool so you manage everything yourself
- ◆ Catalogues, sales pages and forms

Visual identity

A name, a logo, a charter and documents that look like you, and keep your image consistent everywhere.

- ◆ Logo and variations
- ◆ Brand guidelines: colours, typefaces, usage
- ◆ Business card, letterhead, e-mail signature
- ◆ Quote and invoice templates

Automation and content

Fewer repetitive tasks, more time for what matters. Video, audio and content produced with method.

- ◆ Repetitive tasks, automated
- ◆ Videos and visuals made with AI
- ◆ Voice, subtitles and translations
- ◆ Scheduled publishing on your channels

OUR DIFFERENCE

We start by listening.

01 The time to listen

Every client gets the time they need. No rushed meeting, no checklist questionnaire: a real conversation, as long as it takes.

02 Understand before pricing

No quote, no price, until we have understood your need, the way you work and your constraints. Money comes after understanding, never before.

03 Finding the real need

Behind a request there is often another, deeper need. We keep asking questions until we find it, so we build what truly serves you.

04 A solution that evolves

Your business changes, and your tool must change with it. We keep improving it as your needs evolve, long after the first version.

05 Follow-up, always

A piece of software, a website, an identity: everything we deliver comes with support. Assistance, fixes, improvements. We don't disappear once the work is handed over.

WORK WITH US

Let's work together.

01

A first conversation

You tell us where you stand and where you want to go. No commitment, no cost.

02

A clear proposal

What we will do, in what order, how long it takes and at what price. In black and white.

03

Built step by step

You see each step forward before the next begins. Nothing is delivered without your approval.

04

Lasting follow-up

Our work doesn't end at delivery. We stay for whatever comes next.

ELAM VISION

Let's talk about your project.

Tell us where you want to go. Together we will see how to get there. The first conversation costs nothing.
